

Seminario professionalizzante

Principles of Operations Management (in lingua inglese)

Promosso dal prof. Marco Romano

Interventi a cura del Dr. Bin Jiang

a.a. 2023/2024 - 20 ore

The primary objective of this course is to provide an understanding of the importance of operations as it relates to a firm's ability to successfully compete in the marketplace and the role of operations managers in implementing ethical decisions.

This course focuses on understanding the relationship between the demands of the competitive environment and the internal systems of the organization. The emphasis in the course is on the quantitative and behavioral tools and techniques used by managers to make decisions related to the analysis and control functions.
