

Roberto Di Mari, Ph.D.

Department of Economics and Business, University of Catania
Corso Italia 55, 95129, Catania, Italy.¹

Nationality: Italian

Date of birth: November 26, 1988

Family status: Married

Children: 3 (2019, 2021, 2023)

Web: <http://www.dei.unict.it/docenti/roberto.dimari>

ORCID: orcid.org/0000-0001-5498-009X

Telephone (Work): +39 095 753 7621

E-mail: roberto.dimari@unict.it

Current Position and Institutional Responsibilities

- *Associate Professor* of Statistics at the Department of Economics and Business, University of Catania (Italy), since June, 2024.
- *Member of the Board*, Ph.D. in Economics, Management, and Decision Making, University of Catania, since March, 2021.
- *Member of the Evaluating Committee* for Admissions to the MSc in Corporate Finance, University of Catania, since July, 2019.
- *Member of the Board* for Quality Assessment of the MSc in Corporate Finance, University of Catania, since April, 2019.
- *Member of the Board*, Third Mission of the Department of Economics and Business, University of Catania, since January, 2020.
- *Vice-Chair* of the Master in Corporate Finance, University of Catania, since February, 2024.
- *Member of the Board* for Quality Assessment of the Department of Economics and Business, University of Catania, since April, 2024.

Past Positions

- *Assistant Professor with tenure (RTD-B)* of Statistics at the Department of Economics and Business, University of Catania (Italy), from May, 2021, to June, 2024.

National Scientific Qualification to function as Associate Professor of Statistics, Academic Recruitment Field (13D1), since May, 2022.

National Scientific Qualification to function as Associate Professor of Econometrics, Academic Recruitment Field (13A5), since January, 2023.

National Scientific Qualification to function as Full Professor of Econometrics, Academic Recruitment Field (13A5), since November, 2023.

- *Assistant Professor without tenure (RTD-A)* of Statistics at the Department of Economics and Business, University of Catania (Italy), from May, 2018 to May 2021.
- *Postdoctoral researcher* in Statistics at the Department of Economics and Business, University of Catania (Italy), from November, 2016 to May, 2018.
Lecturer (Cultore della Materia) since September, 2017.

¹Last update: June 24, 2024.

Education

- *Ph.D.* (with distinction) in Economics and Finance, 2017, University of Rome Tor Vergata, Italy; Ph.D. thesis on *Finite Mixture Models*, supervised by Prof. R. Rocci (University of Rome Tor Vergata) and co-supervised by Prof. J. K. Vermunt (Tilburg University).
- One-year graduate program at the Einaudi Institute for Economics and Finance (EIEF), Bank of Italy, academic year 2013-2014.
- *Visiting PhD student*, 2015, at the Department of Methodology and Statistics of Tilburg University (Tilburg, Netherlands).
- *Master of Science* in Economics, 2011-2013, University of Rome Tor Vergata, Rome, Italy; final dissertation in Statistics, on *Finite Mixtures of Linear Models: Numerical Evidences and Application to SHIW Data*, supervised by Prof. R. Rocci (University of Rome Tor Vergata) with final grade: 110/110.
- *Bachelor Degree* in Economics, 2011, University of Catania, Italy; final dissertation in Statistics, *Peer effects on academic outcome* supervised by Prof. S. Ingrassia (University of Catania).
- *Erasmus Exchange Student*, 2009 - 2010, University of Lille 1, France.

Ph.D Courses Taught

- *Statistical learning with high dimensions with R*, Ph.D. in Economics, Business, and Decision Making, University of Catania. Since the academic year 2021/2022.

Ph.D thesis supervision

- Johan Lyrvall (joint with Prof. F. Drago), topic: latent variable models for policy evaluation.

Research Interests

Born in 1988, Roberto Di Mari has already published in top methodological journal, such as Psychometrika, Structural Equation Modeling, Journal of Econometrics, and Journal of Business & Economics Statistics. His scientific activity is devoted to latent variable models for cross-section, longitudinal, and time series (mostly non-continuous) data, with a strong computational flavor. He is also strongly interested in applications in several areas, such as economics, finance, political sciences, psychology, and social sciences.

Funded Research Projects

- Senior researcher for the Research Unit (RU) of Catania of the PRIN 2022 project “The SMILE project: Statistical Modeling and Inference to Live the Environment”, Principal Investigator Prof. A. Maruotti, Associated Investigator of the Catania’s RU Prof. A. Punzo.
- Senior researcher of the European Research Council (ERC) project “Political Representation in the Digital era” (PRD), Grant ID number 101077659, Principal Investigator Prof. Jennifer Oser.
- Principal investigator of the project “Starting Grant - PIA.CE.RI. 2020/2022” (Università di Catania): *Fixed and Random Effect modelling of individual cross-national survey data: a unifying approach (FIRE)*.
- Member of the research project “PIA.CE.RI. 2020/2022” (Università di Catania): *Sostenibilità sociale: GENERE, governance e contesto Istituzionale (GENE.SI)* (Principal Investigator: Dr. L. Bonaventura).

- Principal investigator of the research project "PTR 2016 – 2018 II Annualità" (Università di Catania): *Analisi multidimensionale della corruzione percepita*.
- Member of the research project "PTR 2016 – 2018 I Annualità" (Università di Catania): *Academic Analytics per la costruzione di indicatori di performance* (Principal Investigator: Prof. A. Mazza).

Editorial Services

Editorial Board Memberships

- *Behavior Research Methods*: Consulting Editor, 2020 to present.

Refereeing Activities

- *Annals of Applied Statistics, Advances in Data Analysis and Classification, Artificial Intelligence in Medicine, Behavior Research Methods, Biometrical Journal, BMC Medical Research Methodology, Computational Statistics, Computational Statistics and Data Analysis, Econometrics and Statistics, Emerging Markets Finance and Trade, European Journal of Operational Research, Health Economics, Journal of Classification, Journal of the Royal Statistical Society Series C, Journal of Statistical Computation and Simulation, Metron, Multivariate Behavioral Research, Statistics and Computing, Statistical Methods and Applications, Statistical Modelling, Structural Equation Modeling.*

Scientific and Organizing Committee Activities

- 7th International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), August, 2024 (Local Organizer).
- 14th Scientific Meeting of the "Classification and Data Analysis Group (Cladag) of the Italian Statistical Society", Salerno (Italy), September 11–13, 2023, (Member of the Scientific Program Committee).
- 6th International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), September, 2022 (Local Organizer).
- Talk Session on *Measurement uncertainty in complex models* at the 15th International Conference of the ERCIM WG on Computational and Methodological Statistics, London (UK), 2022.
- Talk Session on *Dynamic models for discrete time series and longitudinal data* at the 24th International Conference on Computational Statistics, Bologna (Italy), 2021.
- 5th International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), September, 2020 (Local Organizer).
- 4th International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), September 5–7, 2018 (Local Organizer).
- 3rd International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), September 5–7, 2016 (Local Organizer).
- 2nd International Workshop on *MBC²: Models and Learning in Clustering and Classification*, Catania (Italy), September 3–5, 2014 (Local Organizer).
- International Workshop on *MBC²: Models and Learning in Clustering and Classification*, September 5–7, 2012 (Local Organizer).

Membership in Professional Societies

- Italian Statistical Society (SIS), Psychometric Society, Classification and Data Analysis Group of the Italian Statistical Society (CLADAG).

D. Submitted Articles

1. Di Mari, R., Bakk, Z., and Oser, J. (2023). Multilevel LCA with covariates: Analysis of cross-national citizenship norms with a two-stage approach.

2. Fabbriatore, R., Bakk, Z., Di Mari, R., de Rooij, M., and Palumbo, F. (2023). Students' proficiency evaluation: A non-parametric multilevel latent variable model approach.

Presentations and Posters

In Seminars

- Seminar on *LASSO-penalized clusterwise linear regression modelling with Local Least Angle Regression (L-LARS)*. Department of Statistical Sciences, University of Rome la Sapienza (IT) - January 2020.
- Seminar on *Three-step approach in the context of latent Markov modeling with covariates*. Department of Economics and Finance, University of Rome Tor Vergata (IT) - December 2015.
- Seminar on *Three-step approach in the context of latent Markov modeling with covariates*. Department of Economics and Business, University of Catania (IT) - June 2015.
- Seminar on *Finite mixture of linear regression models: an adaptive constrained approach to maximum likelihood estimation*. Department of Economics and Finance, University of Rome Tor Vergata (IT) - November 2014.

In Invited Sessions

- Talk on *Psycho COVID-19: Evaluating the risk of the psycho-physical impact of the pandemic*. Session's title: *Latent variable and psychometric modelling* in "The 24th International Conference on Computational Statistics (COMPSTAT 2022)", 23-26 August 2022, Bologna, Italy.
- Talk on *LASSO-penalized clusterwise linear regression modelling with Local Least Angle Regression (L-LARS)*. Session's title: *New proposals for clustering complex data structures* in the "4th International Conference on Econometrics and Statistics (EcoSta 2021)" virtual conference, HKUST (Honh Kong), June 24-26, 2021.
- Talk on *Penalized vs constrained maximum likelihood approaches for clusterwise linear regression modeling*, in the "CLAssification and Data Analysis Group (CLADAG) 2019" conference, Cassino (Italy), September 11-13, 2019.
- Talk on *Time-varying measurement error in generalized linear models for longitudinal data: A two-step latent Markov approach*. Session's title: *Advances in mixtures with covariates*, in the "The 11th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2018)", 14-16 December 2018, Pisa, Italy.
- Talk on *Generalized linear models with measurement error in the covariates: a latent Markov approach*. Session's title: *Recent Advances on Clustering and Classification*, in the "49th Meeting of the Italian Statistical Society", 20-22 June 2018, Palermo, Italy.
- Talk on *Handling missing data with multiple imputation using LC models to investigate predictors of HPV infection*. Session's title: *Recent developments in latent class analysis and its applications*, in "The 22nd International Conference on Computational Statistics (COMPSTAT 2016)", 23-26 August 2016, Auditorium Principe Felipe, Oviedo, Spain.

In Contributed Sessions

- Talk on *Latent Markov Modeling With Covariates in the Presence of Direct Effects*, in the “CLAssification and Data Analysis Group (CLADAG) 2017” conference, Milan (Italy), September 13-15, 2017.
- Talk on *Latent Markov Modeling With Covariates in the Presence of Direct Effects*, in the “International Meeting of the Psychometric Society (IMPS) 2017” conference, Zurich (Switzerland), July 18-21, 2017.
- Talk on *Finite mixture of linear regression models: an adaptive constrained approach to maximum likelihood estimation*, in the “Soft Methods in Probability and Statistics” conference, Rome (Italy), September 12-14, 2016.
- Talk on *Three-step approach in the context of latent Markov modeling with covariates*, in the “Flemish Dutch Classification Society Meeting”, Nijmegen (Netherlands), May 29, 2015.

Posters

- Poster on *Finite mixture of linear regression models: an adaptive constrained approach to maximum likelihood estimation*, in the “MBC2 Model-Based Clustering and Classification” workshop, Catania, September 5-7, 2016.

Teaching Activities

Lectureship

- *Lecturer* of the course *Statistical Models for Economics and Finance* (60 hours) for the Master (*Laurea Magistrale*) in Corporate Finance at the Department of Economics and Business of the University of Catania. Since the academic year 2018/2019.
- *Lecturer* of the course *Statistics* (60 hours) for the Bachelor (*Laurea Triennale*) in Business Economics at the Department of Economics and Business of the University of Catania. Since the academic year 2020/2021.
- *Lecturer* of the course *Statistics* (60 hours) for the Bachelor (*Laurea Triennale*) in Economics at the Department of Economics and Business of the University of Catania. Since the academic year 2024/2025.

Tutorials

- *Tutorial instructor*, May 2018. R tutorial for clustering and visualization of complex data at the Summer School on Clustering, Data Analysis and Visualization of Complex data in Catania (Italy), jointly organized by the International Association for Statistical Computing (IASC), European Courses in Advanced Statistics (ECAS), and the classification group of the Italian Statistical Society (CLADAG).
- *Tutorial instructor*, May 2017. R tutorial for clustering methods at the Summer School on Clustering and Classification, organized in Rimini (Italy) by the classification group of the Italian Statistical Society (CLADAG).
- *Tutorial instructor*, September - October 2014. Tutorials for the course in Statistics of Prof. M. Mezzetti for Master MEI at University of Rome Tor Vergata, consisting of 12-hour teaching duties and office hours.
- *Tutorial instructor*, September - October 2014 Teaching assistance for the course in Statistical Computing (Matlab) of Dr. A. Ramponi for Master MEI at University of Rome Tor Vergata.

Languages

- Italian (mother tongue), English and French (fluent), Spanish (Basic).

Computer Skills

R, Matlab, SPSS, Stata, Latent GOLD, LateX, Ms Office Suite, Unix-based distributions (Mac OsX and Linux), Windows.

Interests

Family, Computers, Books, Comics, Martial Arts, Outdoor Activities.
